

CAP Directors Report

February 2021

Adult Athletics

Jazzercise is operating on Monday, Wednesday, and Saturdays.

Basketball Open Gym continues along with the addition of an AM & PM Boot Camp class on Tuesdays/Thursdays. We are seeing a growing interest in Volleyball as well. Adam is planning an open gym style volleyball program.

Adult Enrichment

There are no Adult Enrichment programs happening at this time.

Aquatics

Spring lessons open for registration mid-March and begin the week of April 12. We can provide hands-on support and instruction in the water. Class sizes will be limited to three children per class and social distancing between children will take place.

We've had a huge uptick in private lesson requests this past month. It is normal this time of year to see a little increase in requests but with not having lessons for so long the demand is even greater to get kids in lessons.

Membership sales for 2020 were low, we hope to increase those in 2021 with the goal of selling 200. This will be challenging because we did extend all memberships by 17 weeks when we closed March – July 2020.

- January: 20
- February: 7

On the horizon we have the Egg Hunt in the Park – traditionally the Underwater Egg Hunt. We've moved it to Ripley Park and have four time slots for folks to hunt for eggs, meet the Easter bunny and collect treats.

We are looking to add Aqua Zumba to our arsenal of classes this spring/summer. Kathryn is in communication with an instructor from Whitewater.

Our Pool Deck Yoga instructor, Kathy, will also be teaching a Chair Yoga class (on the pool deck) this spring. We hope to be able to offer it year round for the senior population in Cambridge.

CAP CARE & Preschool

In February, CAP CARE began registering children in 4K for the 2021-2022 school year. As of the end of February there are 15 children registered. These children will be evenly split between a morning and afternoon 4K class. CAP CARE also welcomed six new friends to the program. Four joined the 4K group and two joined after school.

Due to the increase, CAP CARE has begun increasing staffing hours as well as posting job openings for Day Camp and the 2021-2022 school year.

For two weeks in February, CAP CARE had the pleasure of welcoming the CAP intern, Bradley to the program. Bradley spent time with our 4K class, created all of our Day Camp 2021 digital calendars as

well as the school year calendars for 2021-2022. He also freshened up the room by painting the playhouse and two new parent stations.

CAP Play Place offered its first Saturday play day where parents could come and bring their children to play in the CAP CARE rooms for a few hours. Unfortunately, we did not have anyone attend. CAP CARE will continue to offer the CAP Play Place for the months of March, April, and May before choosing whether or not to cancel the program.

Parent's Night Out in February was a huge success. Twelve children attended the event for an Ice Cream Sundae party with Mr. Bradley.

Community Café

The Community Cafés have been suspended until further notice.

Food Pantry

The Food Pantry served 55 households in the month of February including 89 adults, 42 kids, and 19 seniors. The new online ordering option is slowly catching on with 20 orders fulfilled from online orders. The Food Pantry installed new software to help register and track clients, generate reports and track inventory. The Pantry is hoping to initiate the new software when we open for in person shopping on April 5. New volunteers are being recruited and will be trained before clients are back in person. All COVID 19 safety precautions will be taken to make sure in person shopping is safe for both clients and volunteers.

Easter baskets will be distributed on Wednesday, March 31. Second Harvest will be providing the hams this year. The Food Pantry has reached out to area churches to provide side dishes and desserts for the baskets this year. The Pantry is planning on preparing 70 Easter baskets for distribution.

Seniors

All senior programming has been suspended until further notice.

Youth Athletics

February consisted of some fantastic host dates for our boys' and girls' basketball teams. The girls' season has come to a close but a few teams have continued practices to keep the girls active. A couple of the boys' teams are finishing their season off at an end of season tournament of their choosing.

Adam and Brad have now turned their focus to the planning and preparation of our spring and summer activities. Soccer will be the first to kickoff, followed by our baseball and softball season. League meetings have started as well, so the league expects to have info out ASAP. It will be an exciting summer with the return of our beloved baseball and softball programs.

Youth Center

February was the first full month we have had since reopening. Things are going very well and some things we did this month are: tie die masks, Legos, homemade guacamole, foam car building, ghost hunting, and basketball.

Youth Enrichment

The Minecraft session of Stem class wrapped up in February. Registration has opened for the next session, 3D Printing, that starts in March.

New Hires
